William Hooper's Luggage.

[From Chamber's Journal.]

Six months ago I was unexpectedly summoned to town by a letter from my London solicitors, Messrs. Smith and Son, on urgent business, the precise nature of which it is unnecessary for me to specify here. Living as I do some miles from a post-town, I do not get my letters until far into the morning, and get my letters until far into the morning. and it was only by dint of a hard gallop that I succeeded in reaching the station at Bountford just as the mid-day express came steaming in. As I passed the book-stall I called out for a copy of the day's *Times*, but was answered by a gaping boy that he had none—not in yet, or all out, I forget which. Being pressed for time and moreover haunted by a yague dread of the five dreary unoccupied vague dread of the five dreary unoccupied hours before me, I flung down a shilling on the counter, and having caught up at random the first of the row of monthly magazines. hastened to secure my seat in a first class carriage. The compartment in which I found myself was empty, but it seemed that I was not long to have it to myself; for the opposite seat—I had taken one next to the window, with my back to the engine-was occupied by a gentleman's hat-box and railway rug, and a portmanteau was stored away underneath. The rug was of a shaggy brown outside, lined with a running pattern of black

and blue. The hat-box was labeled, "Wm. Hooper, passenger to London."

The comfort of a journey, a long one especially, depends in so great ameasure on the nature of one's fellow-travelers, that it is not to be wondered at that my eye dwelt rather long on the name, while I fell into speculations as to its possessor, and whether he would turn out to be a good, bad, or indifferent compinion. Having scanned his luggage well. I proceeded to look out of the window for the man himself, for we were upon the point of starting, and it was time he made his appearance. At this moment there came hurrically up a tall young man with sandy mustache and blue spectacles, carrying a carpet bag, and an old lady with a dog in her arms. Both looked in at my carriage, and both passed on, the one up the other down the platform, entering respectively the com-partments to the right and lest of mine. The only persons now remaining on the platform were the station master, who was already giving the signal for our departure, two por-tors and a bearded man who placed up and down with folded arms. Him I was disposed of his property, for the whistle sounded, and we went off, and he simply stood still and

stared carelessly after us Plainly, it was no Mr. Hooper. But where then was the man? It was a question more easily asked than answered. I grew weary at last of watching his luggage, and turned my attention to the magazine I had bought at the station. Story after story I began and story

We had whizzed by four or five out-of-theway stations at express rate; now we were slackening speed considerably, and presently, bump, bump, we drew up alongside of the platform at the Tamwell Station.

Here we had a stoppage of ten minutes, to enable northern passengers to lunch; a te-dious delay to those who like myself had no better occupation for the time than walking up and down the platform. Among some Thus much for all the nation, as a grand half dozen others employed in the same manner, one man in particular attracted my nomajestic whole,

walked right down the platform, peering into one carriage after another, as though undeci-ded which to enter. Having arrived at the end of the train, he turned and came leisurely back towards where I was standing. This time he stopped for a moment at my carriage, and an undefined instinct made me watch him still more narrowly. He glanced backed at me, and for an instant his eyes encountered mine, then he turned his head and walked A sudden idea struck me: could this by

any chance be William Hooper, who, having inadvertantly got into a wrong carriage at Bountford, was now come to look after his luggage? But I dismissed the notion immediately; he was so evidently not a first-class class passenger. The ringing of the first bell took off my attention, and I hastened to re-

"By your leave, sir," said a voice at my elbow, and there, te my no small astonishment, was the same objectionable individual, actually preparing to enter the carriage.

"Perhaps you are not aware that this is a first-class carriage." I said in my haughtiest tone, and not budging an inch to facilitate his entrance.

"Just so, sir," he replied, with provoking coolness; and he proceeded to push his way

"It is William Hooper," was my mental conclusion; but this was negatived the first

> Acting on this resolution I soon aware that for some reason or other, he took considerable interest in the luggage he believed to be mine; in reality the property of the invisible William Hooper. At last, so I judged from the circumstance, that although, so long as I looked his way he took no notice of either hat box or rug, no sooner did I turn my head towards the window by which we were seated, than I was conscious—I may almost say instinctively—that both were subjected to the sharpest investigation from his

This might have passed for mere clumsiness, had not my suspicions been already excited. As it was, I could not divest myself of the notion that he had some alterior object in view, though what it could be was difficult to divine. I could scarcely believe that of sheer malice prepense he could wish to damage the portmanteau. Could he possibly be trying to get some idea of its contents, and if so, what sinister intentions didentertain with regard to them? atertain with regard to them?

"It is a good work they are doing there," remarked the Quakeress; "one would be glad to forward it all one could."

A nod was the only reply he vouchsafed.

It was a drowsy day, dull and close. After a while we relapsed into silence. We stopped at but few stations, and no fresh passengers came in to rouse us—Before long, my three companions all seemed to be dozing, and had it not been for a vague sense of insecurity, I

hould have followed their example.

Time went on. We were within half an hour of London, and nothing had occurred to ratify my suspicions. The first movement was on the part of the invalid, who as we neared Chelston, our last stopping place, roused himself from his slumbers, and took down his umbrel-la from its resting place above the seat. At the same instant, he of the red hair sat up wide-awake, though but a moment before he

The ticket collector came round in a hurry, as usual, took the four tickets, saw that the door was locked, and was about to move on, when the gentleman in the respirator placed his hand on the door, saying. "I'm for Chelston-let me out, please.

The man glauced back at the tickets in his hand, and read out, "Northsea, Buntfort and Whitworth—all for Paddington, sir."

"I know." said the invalid, feebly. "There was some difficulty about booking me through to Chelston, and they teld me that a Paddington ticket would do. The advantage, if there is any, is on the Company's side."

"All right, sir;" and he unlocked the door.
At the mention of Northeea being on one of the tickets, my opposite neighbor and I exchanged a momentary glance. I made sure I had discovered one fact about him—namely, that he had been in the train longer even that he had been in the train longer even than I had, and had only changed carriages at Tamwell; a circumstance which I hardly know why, confirmed my belief in his being a suspicious character. As for his face, I confess I could not make out its expression; but he must know now that I suspected him, I thought. At any rate we both looked a little conscious. I fancy; both turned our heada away, and to show that we were not thinking of any thing in particular, both began at the same time a low whistle, the effect thereof, the tunes and keys being different, may be more easily imagined and described.

The elderly gentleman had, in the meaneyes light on, standing a few paces from the door I was about to enter, but my late traveling companion, whom I had left twenty min-

He was evidently as loath to part with the pormanteau as I was anxious to get possession of it; but I was the more determined to carry my point, which I succeeded in doing at last.

Shortly after this, we passed through a tunnel—a long one—in the course of our transit through which, suddenly bethinking me of ascertaining the security of the hat-box, I at tetched my hand across for the purpose. I had just touched the encircling strap, when my fingers encountered those of another hand; there was a mutual start, and both hands were simultaneously withdrawn. This was a disagreeable confirmation of my ed at the same time I felt consid—

The interview did not last long. There was an explosion of laughter in the next room, and then out came Mr. Smith, looking on exceedingly amused.

As he appeared to be in delicate health, I ventured to suggest that the seat opposite would be less liable to draught, but he replied that it did not suit him to sit with his back towards the engine. I then proposed to move the hat-box and rug, so as to vacate a seat further from the window; but this he also declined, saying that he preferred his present ly dozed. Just this; that William Hooper, or rather a fellow assuming the name, is suspected, on good grounds, of having been concerned in a robbery of jewelry at Northsea last night, and of carrying off his spoils with him to-day. This detective was put on the scent, and flattwas more than a year since I was there, and it seemed to me more bustling than ever. Not that I could see much, however, for my friend opposite quite monopolized the window; but this he also declined, saying that he preferred his present ly dozed. The porter did not return as he had promised I suppose some one else snapped him up— and I was beginning to grow very weary of my position. For the last quarter of an hour a policeman had been pacing up and down the platform where we were standing. It had truck me that he was keeping an eye on my companion—who was very possibly known to the police as a dangerous character-but i only just now occurred to me that I could not do better than make over to him the guardianship of Mr. Hooper's property. Accordingly I beckoned him to my side. I half expected that my companion would have bolted

on this, but he kept his ground.
"You wanted me, sir?" asked the police-man, looking rather odd, I fancied. "Yes; I wish to give over this luggage into your charge. It is labelled William Hooper, you will observe. When this particular case was called, two prisoners, a man and a woman, were led into the dock. I looked at them eagerly, fully expecting to recognize in the fermer the elderly gentleman who had been my companion in the railway carriage on that memorable journey to London. But no; he was tall, and young, and sandy haired. Surely I have seen him some where before, though! And his companion? Yes, now I recollected. They were the same two, with the blue spectacles and lap dog, respectively, whom I had observed getting into the train at Buntford, just before it started.

The red haired detective was present, and gave important evidence. The case did not last long, it was so clear against the prisoners, and both were convicted.

BRISBIN'S DEFENSE OF BURBRIDGE. We are unambitious of a controversy with Gen. BRISBIN, whose skill in villification has been recently as fully attested by his communications to the papers, as his unwillingness to protect the people from robberies and outrages by negro soldiers was proved during the infamous career of his friend BURBRIDGE. But the recent letter to the Cincinnati Commercial in which an attempt is made to throw the responsibility of the extortions and outrages of BURBRIDGE upon General SHERMAN, and which seems to be accepted by that military hero himself, prohibits us from maintaining that silence which would suffer the triumph of falsehood. Gen. BURREIDGE must not be permitted to avail himself of SHERMAN'S incantious letter as a screen, nor must SHERMAN be suffered to occupy the false position in which it would place him. Gen. SHERMAN'S general order of June 1st, 1864, is sufficiently harsh and sing the transaction. The Law Concerning Foreign Insurance Companies.-In Maysville there are many agents of insurance companies which are not incorporated by this Commonwealth, and we wish to call the attention of these gentlemen to the law prescribing the conditions on which they are permitted to transact business of insurance in Keutucky.

We wish particularly to call their attention to sections IV, V, and VI of the act to regulate Agencies of Foreign Insurance Companies, appproved March 3d, 1856, Stanton's Revised Statutes, 2 volume page, 275. They read as follows:

"Section IV. The statements required by the foregoing sections shall be renewed in each year thereafter, either in the month of January or July, and the auditor on being satisfied that the capital or deposit consisting of cash, securities, or investments, as provided renew such license.

Secriox V. Every agent obtaining such tlemen have been elected, viz: ness of the agency, a copy of the vis Marketmaster James Alexander. chall be carefully preserved by the clerk, for chings. public inspection; and such agent or agents shall also cause the statement and license to Berry and Thomas Jackson. be published in some newspaper of general circulation in the country, for at least two successive weeks; and in case of a renewal, shall, in like manner, file in the office of the clerk of the county court a copy of such renewed statement and license, and cause the same to be published within thirty days after it shall be filed with the auditor.

Section VI. The statements required by the foregoing sections shall be made up to a period within six months preceding the filing of the same with the auditor.'

It will be seen from section V that it is rendered obligatory on every agent, before he transacts any business of insurance, not only to file a copy of the statement required to be filed with the Auditor in the office of the clerk of the county court in which he may desire to carry on the business of the agency; -but also to cause such statement and license to be published in some newspaper of general circulation in that county for at least two weeks. In case of a renewal he must cause B copy of the "renewed statement and license" to be published in like manner within "thirtydays after it shall be filed with the Auditor."

The provisions of the law are unmistakable. The publication of the statement and license is as much required as the filing of the statement with the auditor or county clerk. This does business for any foreign company. It must also be made in somenewspaper of general intends to do business. The circulation of insurance documents containing a copy of the statement and license is not in compliance with the law. The publication must be in a newspaper. The publication of one state ment in one paper with the names of the several agents in the different counties is not sufficient. Every agent, in every county, must publish the statement, accompanied by a copy of his license, in some newspaper of general circulation in the county in which he desires to transact any business for the company.

There is not one agent in five in this city charms, not the charms themselves. who regularly complies with this law. At least four out of five fail to make the publication required by its terms. No action has ever been taken in this county against any one for violating it, though we understand the matter was before the Grand Jury last fall. We now call the attention of all the agents to its provisions. The law provides a penalty for its violation as follows, viz:

"Section VIII. Any person who shall de-Tiver any policy for insurance, or collect any premium for insurance, or transact any busimoss of insurance in this State for any company not incorporated by the law of this sis of the business done in the Mayor's office State, without having obtained license as by for the year 1867, as appears on the docket: this act required, or who shall in any way violate the provisions of this act, shall be fined arrests, 87 for breaches of peace, 142 for ing the desperate varmint, al and for every such offense, not less than one hun- breaches of ordinance; sent to juil, 63; dred, or more than five hundred dollars, at amount of fines assessed, \$1560,50, collected, the discretion of a jury."

It will searcely be alleged by those who have observed our course with reference to the Council, that we are influenced in these nial hosts of the Merchants' Hotel, among us, expressions of opinion by any other motive uary, 1868, in the city of Louisville, that a than a disinterested regard for the public welfare, and a desire to commend in suitable terms, a constant manifestation of official zeal and a righteous discharge of representative duty: That we have never regarded the suitable measures and concessions as can be City Council as infallible, the City Council itself will bear witness; but we do not believe ing Democratic opinions, that the entire Concan anywhere be found that has proved itself attentive waiters, and the general personal in all things more patient, scrupulous, laborious, and circumspect. We are now standing upon the threshold of a newera. It is highly necessary that our citizens shall be duly impressed with the characacter of the exigencies which spring from the changing situation. There must be no more trifling with public interests. The atmosphere in which we move has been freshened by the breath of Progress, and a healthier public sentiment demands that every influence shall be brought to bear which can permanently fix the conditions of our individual and corporate prosperity. To this end it is requisite resolute and discreet.

DEPOSITION OF DAVID E. ROBERTS. STATE OF KENTUCKY, County of Mason:

The deposition of David E. Roberts, taken on the 16th day of October, 1867, in the city of Maysville, in the State and county aforesaid, in the office of the mayor of said city, before Charles Cady mayor of said city, to be read as evidence in the case pending before the fortieth Congress of the United States, in which Samuel McKee is contesting the right of John D. Young to a seat in the said fortieth Congress. By F. H. Bierbower, attorney for Samuel

McKee. Q. What is your name, residence and occu-

A. David E. Roberts, jr., Maysville, Kentucky: clerk.

Q. If you travelled through any of the counties of the ninth congressional district prior to the last May election, and observed the feeling and conduct of the people, state what you observed, and whether in your judgment Union men, and especially Samuel McKee, and others advocating his claims to election, could safely address the citizens of Floyd and Morgan counties in said district pon political question without an accompanyng guard of their friends for their protection. Tell also whether or not you heard or know of any threats of violence to McKee or any of his friends in any of the above named counties or in any part of Bath county in said ninth district, and also if you know of any disturbance or violence at any point in said district in the presence of Samuel McKee during the time he was addressing the people. A. I was during the month of April in the following counties: Lewis, Lawrence, Boyd, Floyd Morgan, Pike, Montgomery, and Bath, and had an excellent opportunity of ascertaining the feelings of the people in those counties, (in Morgan and Floyd particularly) where the rebel element prevails. Captain McKee was threatened, if the word of some of the most prominent citizens can be relied on. As for myself I would not have undertaken to canvass those counties advocating the principles of Captain McKee without a sufficient guard to prevent disturbances; I would consider that I was hazarding my life. In West Liberty, Morgan county, the meeting of which Captain McKee was the speaker was interrupted by a gang of returned rebel soldiers, and several pistols were drawn, and had it not been for Captain Mckee's bold effrontery they would no doubt have either killed or crippled him. I heard previous to Captain McKee's going there that it would be unsafe

ty of gentlemen met at D. A. Richardson's, on | precincts of the upper counties, and do you Market street, to celebrate the incoming of or do you not believe that some loyal men were Samuel McKee because of a dread of violence then or hereafter to themselves?

A. From what I saw and heard I do firmly believe that there was danger of men voting for McKee being either violated or disturbed either in person or property; at some of the precincts in the district it was not safe for a man to vote his sentiments.

Q. What judges, sheriffs, and clerks, who were appointed to serve at the May election in 1867, and who did serve at said election. were notoriously southern sympathizers? A. Joseph Frank, Maysville, precinct No. 2, judge; Frank Long, clerk, precinct No. 2;

John Grant, sheriff, precinct No. 2. And further deponent saith not.

A. On Thursday, the 28th day of March last, I was nominated by a Union conservative convention as a cundidate for a sent in the fortieth Congress of the United States, from the 9th congressional district of Kentucky. On the Monday previous to my nomination the Hon. John D. Young, after the debate at Flemingsburg, had declined to accompany Captain McKee any further during the anvass, but made a list of appointments of the stump at Prestonburg, Widow Hatcher's pelled to carry an armed guard to protect his and Piketon. I first met Captain McKee in day, the 1st day of April, and met him in debate at all of his subsequent appointments, except that at Raglan's Mills, I think, in Bath the meeting at Mt. Sterling, in Montgomery county, on the Saturday previous to the election. In the debate at Grayson, and in every subsequent debate, I stated to the audiences that Captain McKee had promised in Maysville that he (McKee) would not contest the panied to his appointments in Floyd county seat of Judge Young, if he should be elected by friends who were asmed for the purpose of by a majority of the legal voters of the dis- protecting his person and life, and if need be, trict, even though that majority was made up of risking their own lives in his defence.
